Dear Valued Customer

Product Name Change of YMC CHIRAL Polysaccharide Derivative Series

First of all we would like to express our deepest appreciation for using YMC products. We would like to continue to do our best in distributing fine products meeting up to your standards. We would be most grateful of your understanding and acknowledgement to our notification by this letter.

We are to change the product name of optical isomer separation columns, "YMC CHIRAL Polysaccharide Derivative Series". We will strive to provide a total solution of chiral separations, including selection of appropriate chromatographic columns, packing materials, preparative chromatography devices, and contract services by increasing our product line-up and improving brand recognition.

We would like to note that there is no change to the specifications of the product listed below by this change.

Comparison table of the product names

Current	New
YMC CHIRAL Amylose-C	CHIRAL ART Amylose-C
YMC CHIRAL Cellulose-C	CHIRAL ART Cellulose-C
YMC CHIRAL Amylose-SA	CHIRAL ART Amylose-SA
YMC CHIRAL Cellulose-SB	CHIRAL ART Cellulose-SB

Time of implementation : January 1, 2015

Part numbers will not be changed.

There will be no change in terms of performance and quality of our products. Please feel confident to use our products as usual.

Thank you and Best regards,
YMC Co., Ltd.
