

Notice for discontinuation of the Cartridge Holder Set

Dear Valued Customers,

Thank you for using YMC products

This is to inform you that we will discontinue the (analytical) Cartridge Holder Set for YMC guard cartridges due to difficulty in procurement of a column coupler, which is a component of the Cartridge Holder Set. We are going to sell the cartridge holder without the column coupler from the effective date. Details of this change are described below. There is no change in structure and specifications of the cartridge holder itself. Therefore, the guard cartridge columns that you may have in hand can be continuously used.

Should you have any question regarding this matter, please contact your local YMC office. We would appreciate your understanding and continued business with you.

1. Products concerned:

- Cartridge Holder Set that includes one cartridge holder and one column coupler will be discontinued.

Product Name	Product number
Cartridge Holder Set (for 10 mm length)	XPGCH-Q1
Cartridge Holder Set (for 20 mm length)	XPGCH-Q2

- Cartridge Holder that includes one cartridge holder (only) will be introduced after the discontinuation of the Cartridge Holder Set

Product Name	Product number
Cartridge Holder (for 10 mm length)	XPGCHP1
Cartridge Holder (for 20 mm length)	XPGCHP2

2. Effective date: March 31, 2020
(*while stocks last. Date may subject to change.)
